steel privacy box for drawers

A new and handy way to keep valuables secure and close at hand in offices, kitchens, closets, and RV's.

- protect documents, valuables, medicines, etc. in a variety of environments
- easy drop-in installation with 6 internal screw attachment points
- personalized 3 to 8 digit entry codes. Over 10 million combinations possible.
- ADA compliant tactile keypad
- four LED's plus audible tones indicate correct/incorrect operation, entry code time-out, new entry code, and low battery.
- steel privacy box dimensions: 17 $\frac{3}{8}$ " x 11 $\frac{1}{4}$ " x 1 $\frac{1}{16}$ "

steel privacy box

The dimensions of the steel privacy box are 448 x 285 x 43 mm (17 5/8" x 11 1/4" x 1 1/16").
Steel thickness from .8 mm to 2 mm (.0315" - .078").

Entry is by electronic code on the keypad. Custom codes are easy to program and re-program as desired. In the event of internal battery failure, the keypad can be powered and the box opened using an external 9-Volt battery and the personal security code.

The privacy box may be permanently screwed to the drawer body by way of side and bottom attachment points.

Uses for the privacy box:

- Protect business documents and personal items within an office environment.
- Conceal jewelry or other valuables inside a dresser or closet system drawer.
- Hide documents or personal effects from dinner guests, house guests and babysitters.
- Protect prescription medicines.
- Protect keys, licenses, and other documents inside an RV.

The security box is also designed for drop-in installation into a double width standard storage module of the Valenbox kitchen drawer organization system. For more information on the Valenbox organization system please contact Valendrawers, Inc.

Customized dimensions of the privacy box are possible based on minimum quantities and additional lead time.
