servetto 2004

Servetto 2004 is the latest technical update of Servetto's most popular side mounted lift. Features smooth and controlled action with built-in down pause for convenient loading. Servetto's special hydraulic mechanism insures easy operation and a long service life. Best for mounting to closet system partitions. Three width ranges. Optional long handle available. Optional stackable spacers (3/4" / 2 CM thick) are used to clear obstacles such as doors.

Lift is placed atop optional 3/4" stackable spacer

Servetto Closet Lifts

Servetto 2004 is the industry standard side mount lift from the company that invented the wardrobe lift. All Servetto lifts are known for an exceptionally smooth operation while moving through the controlled down and up cycle.

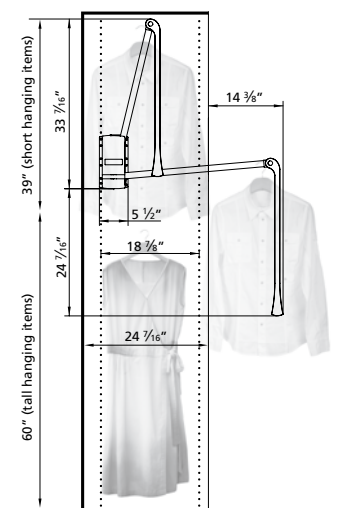

Servetto lifts are available in both side mount and rear wall mount versions.
